ERHVERVSAKADEMI AARHUS
BUSINESS ACADEMY AARHUS

Machine Learning - Syllabus Week 4.

Topics : Clustering (k-means), Decision Trees, Random Forest and Ensemble Learning.

Litterature:

[Hands on Machine Learning] chapter 6 and chapter 7
You don't have to understand all the details while reading it, the most important is to get the general ideas (I.e. especially for p. 215- 233 (199 – 211 i v2), look through, but don't worry too much about the details).

Video:
https://www.youtube.com/watch?v=LDRbO9a6XPU&list=WL&index=3

A nice overview - only for decision trees, is this video explaining a simple decision tree example with the corresponding code:

Exercises.
Do all the exercises for this week.
